Neighbors Forums

Imagine

Imagine being able to reach hundreds of friendly, locally interested people instantly, easily:

neighbors@inyourarea.org

- What might you do together?

Story

- Someone needed help.
- The Wheel of Cheese
 - Frantic request:
“Is anyone flying to Seattle in next 12 hours? I am stuck out of town. Can you take a wheel of cheese to the national competition? Ours went missing. Homeland Security won’t let us overnight replacement.”
 - Neighbor replies privately, “I am a former airline employee and I’ve been looking for a reason to go to Seattle.” Cheese makes it in time.

How different? Online

■ Online advantages

- 24 x 7 – Anytime, anywhere convenience
- Engage people unable to attend meetings, with limited mobility, two jobs, children
- Less intimidating for some – open and accessible “ice breaker” into public life
- Local approach coupled with in-person activities increases value and trust – Online *only* would be a major disadvantage

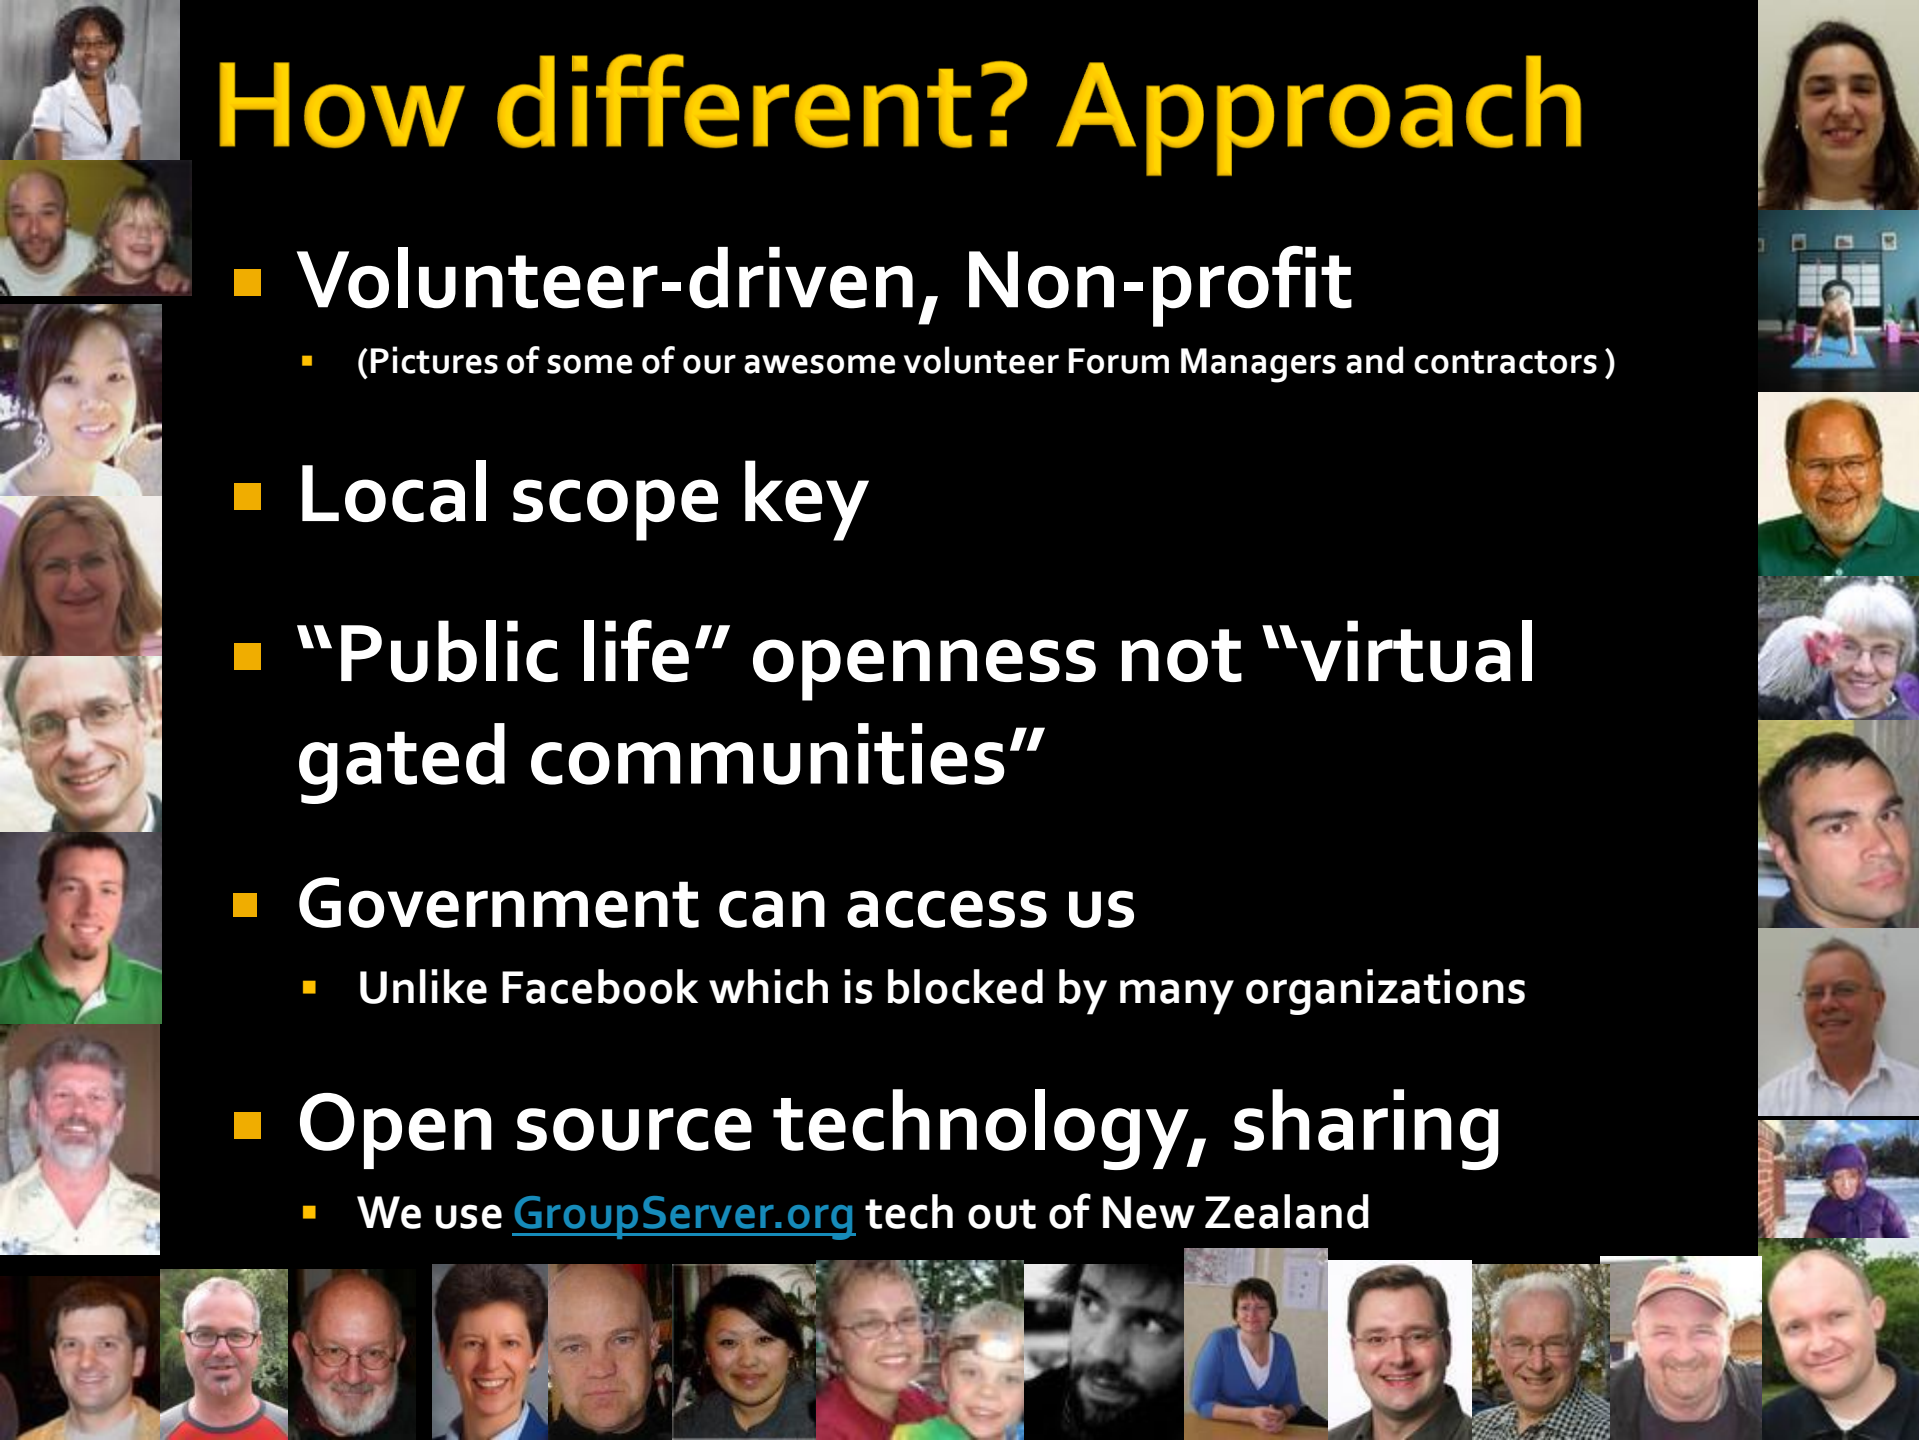

How different? Rules

■ Civility matters

- Real names build trust
- No name calling
- Post just 2 times a day (on most forums) spreads participation, retains audience
- Facilitated by local volunteer “Forum Manager,” rules are enforced
- Major contrast with often anonymous, nasty online news comments

How different? Approach

- **Volunteer-driven, Non-profit**
 - (Pictures of some of our awesome volunteer Forum Managers and contractors)
- **Local scope key**
- **“Public life” openness not “virtual gated communities”**
- **Government can access us**
 - Unlike Facebook which is blocked by many organizations
- **Open source technology, sharing**
 - We use [GroupServer.org](https://groupserver.org) tech out of New Zealand

- Recipe
 - 100 start-up members
 - 1 local volunteer “Forum Manager” – You?
 - Paper sign-ups at community events
 - E-mail outreach, e-letter signed by initial members
 - Friendly round of virtual introductions with real people using real names to build trust

**Introductions break
the virtual ice.**

Hosting a Healthy Forum

- Strong “critical mass” **launch is key to success**
- **Need mix** of local institutions – parks, officials, places of worship, community groups AND everyday residents
- Forum Manager plays crucial role – needed to “seed” forum with announcements until community groups begin to **do it themselves**
- ~10% of households across forum area is a magic threshold for **“self-generative”** community life
- Forum facilitation prevents difficult topics from turning into “flame wars” – one blow out can kill a forum

Inclusive Participation?

- **Massive Failure Nationwide**
 - Nationally “neighbors online” are not serving middle/lower income or immigrant communities well – huge missed opportunity
 - PewInternet.org research:
<http://blog.e-democracy.org/posts/858>
 - 15% of Adult internet users with household incomes over \$75K are members of neighborhood e-lists/forums
 - 3% of Net users under \$50K, rural, Latino, etc.
 - 7% overall, more women than men, African-Americans and Whites equal at 8%

Inclusive Response

- **Our Response: Inclusive Social Media**
 - Started with Cedar Riverside, Frogtown, also Leech Lake with previous Rural Voices project
 - Funded outreach, paper sign-ups at events, “content engagement” relevant to diverse communities – first major funded and staffed effort since our founding in 1994
 - Ford Foundation major funder 2010-11
 - New funders adding neighborhoods in 2011
 - Seeking funding for major expansion, national lesson sharing for 2012-14
