Neighbors Forums

Imagine

Imagine being able to reach hundreds of friendly, locally interested people instantly, easily:

neighbors@inyourarea.org

- What would you say?
- What would you like to hear?
- What might you do together?

Story

- Someone needed help.
- The Wheel of Cheese
 - Frantic request:
“Is anyone flying to Seattle in next 12 hours? I am stuck out of town. Can you take a wheel of cheese to the national competition? Ours went missing. Homeland Security won’t let us overnight replacement.”
 - Neighbor replies privately, “I am a former airline employee and I’ve been looking for a reason to go to Seattle.” Cheese makes it in time.

How different? Online

■ Online advantages

- 24 x 7 – Anytime, anywhere convenience
- Engage people unable to attend meetings, with limited mobility, two jobs, children
- Less intimidating for some – open and accessible “ice breaker” into public life
- Local approach coupled with in-person activities increases value and trust – Online *only* would be a major disadvantage

How different? Rules

■ Civility matters

- Real names build trust
- No name calling
- Post just 2 times a day (on most forums) spreads participation, retains audience
- Facilitated by local volunteer “Forum Manager,” rules are enforced
- Major contrast with often anonymous, nasty online news comments

How different? Approach

- **Volunteer-driven, Non-profit**

- (Pictures of some of our awesome volunteer Forum Managers and contractors)

- **Local scope key**

- **“Public life” openness not “virtual gated communities”**

- **Government can access us**

- Unlike Facebook which is blocked by many organizations

- **Open source technology, sharing**

- We use GroupServer.org tech out of New Zealand

the virtual ice.**

Hosting a Healthy Forum

- Strong “critical mass” launch is key to success
- Need mix of local institutions – parks, officials, places of worship, community groups AND everyday residents
- Forum Manager plays crucial role – needed to “seed” forum with announcements until community groups begin to do it themselves
- ~10% of households across forum area is a magic threshold for “self-generative” community life
- Forum facilitation prevents difficult topics from turning into “flame wars” – one blow out can kill a forum

Inclusive Participation?

- **Massive Failure Nationwide**
 - Nationally “neighbors online” are not serving middle/lower income or immigrant communities well – huge missed opportunity
 - PewInternet.org research:
<http://blog.e-democracy.org/posts/858>
 - 15% of Adult internet users with household incomes over \$75K are members of neighborhood e-lists/forums
 - 3% of Net users under \$50K, rural, Latino, etc.
 - 7% overall, more women than men, African-Americans and Whites equal at 8%

Inclusive Response

- **Our Response: Inclusive Social Media**
 - **Started with Cedar Riverside, Frogtown, also Leech Lake with previous Rural Voices project**
 - **Funded outreach, paper sign-ups at events, “content engagement” relevant to diverse communities – first major funded and staffed effort since our founding in 1994**
 - **Ford Foundation major funder 2010-11**
 - **New funders adding neighborhoods in 2011**
 - **Seeking funding for major expansion, national lesson sharing for 2012-14**
